## THOUSANDS TRY TO STEM FIRES

Ventura Mountain Flames Go Inexorably Onward

Eleven Charred Autos Left in Path of Flames

Toll of Oil Wells Grows as Men Fight Vainly

(Continued from First Page)

service official, was fatally injured this afternoon when a motorcycle with a trunk blown off by flames, was riding toward him. He was killed by the flames. Another man, whose name was not learned, was seriously injured, while six other fighters received minor burns.

**WOMAN SAFE**  
A Mrs. Ferguson, the woman reported missing yesterday, is safe. She became separated from her husband in the confusion of getting out of the canyon, and was taken in the opposite direction. They were reunited today.

Two men, also reported missing yesterday, at present are unaccounted for.

Along the roads of the territory burned over yesterday, eleven charred automobiles tell the story of flames that followed them at too swift a pace for mechanical speed, or human endurance. The flames found an inflammable resting spot.

**NUMEROUS RAIN**

SAVES TOWN FROM FIRE

ANAKETIA, Sept. 17.—After a brief but effective sweep over 2000 acres of grazing land and farming land in the Santa Ana Canyon a brush fire, origin unknown, was subdued this afternoon by volunteer fire fighters aided by a generous rainfall.

The flames burst out at 10 a.m. about ten miles east of this city and covering a front of about seven miles swept eastward through the canyon at one time creating within ten yards the pedal Bryant mansion located on the north side of the Santa Ana River just south of Corona.

The flames swept near enough to threaten the little hamlet of Villa Park, sweeping over the vast Dixey ranch near the Irvine County Park. The little town of Villa was in the path of the blaze, which backed an east wind, but the light shower was sufficient to save that hamlet. Forest rangers declared the result was lowering of humidity following the showers will prove of material aid to the fire fighters in gaining control of the blaze.

**FIRES IN SOUTH**

STILL RAGING ON

SAN DIEGO, Sept. 17.—With rains falling at Ramona and at Escondido hope is held that the showers might extend to the area being burned by a serious brush and timber fire which since Saturday has raged north of Ramona.

At noon, a total of 22,000 acres of brush, brush, timber and ranch land had been blackened, nine houses and eight barns had been burned and great quantities of hay and other farm products destroyed.

## Lurid Path of Ruin Blazed Through Mountains

(Southwest Photo Service for Aero Corporation of California) When the God of Fire Laughs

Pilot Burrell Smith and Fred Hutton, of the Aero Corporation of California, flew high above the flaming Santa Paula Canyon fire yesterday afternoon, and here is what they saw. They flew through a dense smoke at 1500 feet altitude and declared the temperature up there was 110 deg. F. flames, they said, were leaping more than 100 feet in the air.

according to reports received by Mrs. Luther G. Gordon of La Mesa, wife of the chief county fire warden. Fire fighters last night were forced to contend with an eight-mile-per-hour wind while attempting to check the spread of the fire, according to report by Gordon. "Temperatures were high, ranging around the 100-degree mark all through the night."

**RAIN BEGINS TO FALL**  
Relief from the high temperatures occurred before noon today, when light rains began falling at Ramona. At noon the showers had reached the southern end of the fire area and Gordon held the hope that rain would extend north to the serious blaze around Cerral Mountain. At the time he was preparing to backfire from Black Mountain down Black Canyon.

Two other fires threatened last night, one at Jamacha, the other in Riverside county just north of the county line. Report by Mrs. Gordon states that the Jamacha fire was extinguished at midnight, apparently with no property damage other than the burning of fifty fence posts. The Riverside county fire caused by E. Anderson, Superintendent, Cleveland National Forest, who had gone to the Ramona fire, to leave for the Palmdale district. He returned to the fire north of Ramona stating the Riverside county fire is not threatening to cross the county line.

**MORE MEN TO FIGHT**

Orders by Anderson resulted in an additional crew of five fighters numbering fifty being sent from San Diego shortly before 10 a.m. The crew left in two trucks, took food and supplies to last one day and was to report at Ramona for assignment to work on the fire line, according to report at Anderson's office.

Complete information as to the property destroyed is not available. Reports here, however, state that the following have been destroyed by the flames:  
Two large barns on the Rotund ranch at Ballena. A valuable summer home owned by a Mr. Anderson, Ballena. Hundreds of tons of hay which was being baled. All but one of the buildings at Goose Valley. Several chicken houses on the E. P. ranch. Several piles of lumber on the Sutherland dam site. Several large buildings on the Marie Louise ranch.

**CONTROL NEAR FOR**

SANTA BARBARA FIRE

SANTA BARBARA, Sept. 17. (Exclusive)—A grass and brush fire which for a time threatened the Santa Maria water shaft in the Santa Barbara National Forest in the Cuyama Valley was nearly under control late today. It has been confined to the busy ranch northeast of Santa Maria by more than 100 fire fighters under the direction of County Forester Frank Dunne, according to reports from the fire line.

The conflagration started early Sunday morning and for more than thirty hours raged over some 10,000 acres of brush before it was stopped.

An Ontario lookout stationed on Figueroa Peak reported the flames started four miles north of Pioneer Park. By 9 o'clock Sunday morning the fire was sweeping along at a fast rate, driven by a hard north wind.

According to reports received last night by Assistant Forest Supervisor Frank Robinson, the fire was still a half mile outside of the boundaries of the Santa Barbara National Forest.

**BYRD PARTY HAS COLDEST PERIOD**

(Continued from First Page)

spell also may have some effect upon the density of the ice pack through which the ships must come this summer, and how we want to see those ships in early. They mean mail and intimate news of home—no bridge with civilization.

The drift this winter was shown when the aviation gage began to show the surface of the barrier last fall. Digging out is going to be quite a job when it gets a little warmer.

**BIRTHDAY BORES BOSTON**

BOSTON, Sept. 17. (Exclusive)—Boston was 299 years of age today. There were no special ceremonies.

## TWO NORTHERN FIRES CHECKED

Red Demon Now Threatens Columbia River Town

Street Lights Burn All Day; Mill Area Suffers

Housewives Ready to Flee Now Grow Calmer

(Continued from First Page)

PORTLAND (Or.) Sept. 17. (AP)—Checked on two fronts, at Estacada in Oregon and Yaocit in Washington, the red menace of the forest sought other fields to conquer and tonight is threatening the little town of Stevenson, on the Washington bank of the Columbia River. The Ryan-Alan sawmill, two miles north of Stevenson, is reported in imminent danger of being destroyed by a fire which raged within a stone's throw of it. Thirty-two families who live in the vicinity of the mill were ordered out during the day and fled to Stevenson.

The fire was being fought by mill hands and a company of 125 volunteers from Hood River, Or.

Street lights in Stevenson burned all day because of the darkness caused by a heavy blanket of smoke from the near-by fire. Damage done to the vicinity of the little town was estimated at more than \$400,000. The heaviest loss was suffered by the Columbia River Timber Company, whose small hotel and office buildings at Greenleaf, six miles west of Stevenson, were destroyed.

The town of Estacada, thirty-five miles southeast of this city, believes itself no longer in danger of destruction by fire which had blackened more than 20,000 acres of timber and brush. The city is reported returning their possessions to accustomed places.

At least ten groups of farm buildings in the Le Barre district near Estacada, the Le Barre Hotel and the Garfield school were destroyed.

Many farmers declared they had lost everything.

**TOWN FOLKS ALL READY TO FLEE BY SPECIAL TRAIN**

YACOLT (Wash.) Sept. 17. (AP)—Surrounded on all sides by a smoldering forest fire that at any moment might engulf the town, the town of Yaocit tonight was situated in an extremely hazardous position. Residents there, the 200 persons in the village are prepared to flee on a moment's notice. The only route open for a retreat is over the North Pacific Railroad and a special train was in readiness throughout the night to move as soon as the word was given.

The train fifteen flat cars would contain all the residents of the community and all their essential household goods. The locomotive carried a full head of steam.

**SEA AIR MAIL LINE HERALDED**

(Continued from First Page)

connected in South America with American lines, with passenger exchange as a last resort of the company and all their essential household goods. The locomotive carried a full head of steam.

**SEA AT CONTROL**

Those attending the conference sided today from a suggestion that they request Congress to pass legislation placing commercial air routes under government control.

A proposal by Earl P. Halliburton, Dunsmuir, Calif., president of the Southwest Air Fast Express, that the conference petition Congress for legislation creating the interstate Commerce Commission, or some similar body, to control air rates, was lost for want of a second.

A suggestion by William P. MacCracken, assistant Secretary of Commerce for aeronautics, that a committee be appointed to study the matter was not considered.

Both MacCracken and Gen. John F. O'Ryan, president of the Colonial Airways System and chairman of the conference, opposed submission to governmental control.

The air secretary told the operators that the railroads were not placed under regulation until "pernicious practices" made it necessary, and said the air-transport system should be controlled by the government.

**COMMITTEES NAMED**

An indication of the desire of leaders of the industry to do their own regulating was given with the announcement of the appointment of ten committees, each assigned to consider a special phase of air transportation.

Amelia Earhart, trans-Atlantic flyer and the only woman given an appointment, was named head of the group to discuss ticket sales and solicitation methods and their relation to increased traffic.

Herbert Hoover, Jr., son of the President, was named chairman of the committee to study radio and communication problems.

**SMALLPOX EPIDEMIC IN PANAMA SPREADS**

(Copyright 1939, by Chicago Tribune.)

PANAMA, Sept. 17. (Exclusive)—The smallpox epidemic in Panama is spreading and increasing in seriousness. On June 18 there were twenty-eight cases, while the total for yesterday and today was 121, including one death. The cases are developing in the congested tenement districts of Panama City.

## BLACKMER GETS CONTEMPT FINE

Rich Oil Man Must Forfeit \$60,000 to Court

Sum Will be Taken from Impounded Bonds

Penalty Levied for Failure to Heed Subpoenas

(Continued from First Page)

WASHINGTON, Sept. 17. (AP)—Harry M. Blackmer, former president of the Midwest Refining Company, was fined \$60,000 in the District of Columbia Supreme Court today for contempt in failing to answer to subpoenas to appear in the trial of Albert R. Fall and Harry F. Sinclair on conspiracy charges in connection with the Teapot Dome.

The fine and costs will be taken from the \$100,000 in bonds owned by Blackmer, which were ordered forfeited by the court for violation of the Walsh Act, which provides service of summons may be made on Americans residing in foreign jurisdiction and for forfeiture up to \$100,000 if they fail to answer the subpoena.

Blackmer was fined \$50,000 and costs for his failure to answer the summons in the Fall-Sinclair case in 1927, which resulted in a material, and a similar sum for failure to appear in April, 1928, at the time Sinclair was tried on charges.

George Gordon Battle, attorney for the retired oil man who has continued to reside in Paris during the oil litigation, gave notice he will appeal from the decision.

**LASSCO's**

**Central and South American Cruise**

Sails from Los Angeles October 5

It takes you to 20 chief ports and cities of 11 Latin American countries at the ideal season of the year.

It shows you scenic beauties that range from luxuriant tropical gardens to the sublime grandeur of the Andes... over eight thousand trails whose origins are lost in antiquity!

And it provides contacts of the most delightful kind with the culture and charm of Latin American peoples. Quite naturally, therefore, LASSCO's annual Central and South American cruise is regarded by the travel-wise as the premier of all extended tours.

**Prompt Action Advisable**

The tour cost, ranging from \$950, includes a comprehensive program of shore excursions. In the interest of maximum comfort and service, the passenger list will be strictly limited. The sailing date is rapidly approaching, so that prompt action is advisable to assure you a choice of accommodations. Apply at once to the nearest travel bureau for reservations and full particulars, or to—

### AMAGG LIGHTS WAY OF LEAGUE

Consider Revising  
Commitment to Fit Pact

For War Renunciation  
Pledge Into Charter

Delegate Contends  
for Amendment

GENEVA, Sept. 17. (AP)—The British delegate to the tenth assembly of the League of Nations today proposed a revision of the league's charter to include a pledge of renunciation of war.

The British delegate, Lord Bessborough, proposed a plan for revising the league's charter to include a pledge of renunciation of war.

He said that the British government was in favor of the plan, but that it was not yet decided whether to accept it.

The plan was followed by a vote on the amendment, which was defeated.

The British delegate then proposed a new amendment, which was also defeated.

### ONCE BROADWAY TOAST IN TOILS

Army Corps Reorganization  
Announced by Hoover

Program for Vast Public  
Works Brings Change

Appointment Fills Post  
Vacated by Jadin

CHICAGO, Sept. 17. (Exclusive)—Twenty-five years ago toasts were drunk on Broadway to Truly Shattuck, she of the lovely form and pleasing voice.

Today a fat, shabby woman, in a large department store furiously looked around her, then grabbed a sheep dress and started to put it on.

From the road companies to the vaudeville circuit, from the neighborhood streets to the neighborhood streets, she had been a success.

The snatching at the dress hadn't been an attempt at profit-making, she said. She had the money, she thought, that garbed in a new gown, she might once more make an attempt at a skill on the vaudeville stage.

She still can sing, she insisted, and dance after a fashion.

Sitting in the woman's ward at the hospital, she told white policemen looked curiously on. Her faded brown eyes flashed for a moment as she told of the important roles she had played in the past.

Her shoulders sagged and she again wept.

"I don't know why I did it," she said. "I haven't had work for months. They told me then that my vaudeville skill wouldn't go over any more. Since then I've tramped the streets looking for a job. I owe room rent."

"That green dress looked so pretty. The tag said it was only \$1.95. I didn't have a cent, but I bought it. I suddenly found myself taking it."

Not all her friends had deserted her, the former actress found. Martin Quigley, North Side restaurant owner, appeared at the bureau to furnish bond and take her to his home. He had been one of her admirers when the century was young.

NEW YORK, Sept. 17. (Exclusive)—Marjorie Rambeau was suspended by the Actors' Equity Association today. The edict was veiled in secrecy. Equity officials would make no comment other than that Miss Rambeau had been dropped temporarily because she had suffered from a stroke of temperament after the fashion of Jeanne Eagels, her predecessor in the disrepute of the Actors' Equity.

The period of time affecting Miss Rambeau's dismissal and the identity of the producer who brought the charges were kept under cover.

It was learned that Miss Rambeau, in a move to avoid any embarrassment, had left on a \$100,000 allocation of affection suit brought by Mrs. Mabel Mantion, shifted her histrionic work to the Pacific Coast in recent months. She was sued for alienating the affections of William Kevitt Mantion, an actor.

Miss Rambeau appeared in Coast stock companies under the direction of Henry Duffy. It was intimated at Equity that she either walked out of her latest show or failed to answer a curtain call.

Strike Bomber Misses Target

NEW ORLEANS, Sept. 17. (AP)—A street-car strike vandal threw a bomb at a City Park street car early today but missed the car. The bomb exploded against an iron alley gate at the residence of Mrs. Hazel Bowers on St. Louis street. The explosion ripped the iron gate off its hinges, tore up brick foundations and broke window panes. No one was hurt. The bomb thrower escaped.

Champion Roper Killed at Work

NOGALLES (ARIZ.) Sept. 17. (AP)—The work in which Pay Adams of Hawley, Cal., became the champion calf roper of the world today took his life.

Adams was knocked unconscious five days ago in an ordinary law of roping a steer at a stockyard where he was driving cattle. He suffered concussion of the brain and never regained consciousness, finally contracting pneumonia.

Not all her friends had deserted her, the former actress found. Martin Quigley, North Side restaurant owner, appeared at the bureau to furnish bond and take her to his home. He had been one of her admirers when the century was young.

NEW YORK, Sept. 17. (Exclusive)—Marjorie Rambeau was suspended by the Actors' Equity Association today. The edict was veiled in secrecy. Equity officials would make no comment other than that Miss Rambeau had been dropped temporarily because she had suffered from a stroke of temperament after the fashion of Jeanne Eagels, her predecessor in the disrepute of the Actors' Equity.

The period of time affecting Miss Rambeau's dismissal and the identity of the producer who brought the charges were kept under cover.

It was learned that Miss Rambeau, in a move to avoid any embarrassment, had left on a \$100,000 allocation of affection suit brought by Mrs. Mabel Mantion, shifted her histrionic work to the Pacific Coast in recent months. She was sued for alienating the affections of William Kevitt Mantion, an actor.

Miss Rambeau appeared in Coast stock companies under the direction of Henry Duffy. It was intimated at Equity that she either walked out of her latest show or failed to answer a curtain call.

Strike Bomber Misses Target

NEW ORLEANS, Sept. 17. (AP)—A street-car strike vandal threw a bomb at a City Park street car early today but missed the car. The bomb exploded against an iron alley gate at the residence of Mrs. Hazel Bowers on St. Louis street. The explosion ripped the iron gate off its hinges, tore up brick foundations and broke window panes. No one was hurt. The bomb thrower escaped.

Champion Roper Killed at Work

NOGALLES (ARIZ.) Sept. 17. (AP)—The work in which Pay Adams of Hawley, Cal., became the champion calf roper of the world today took his life.

Adams was knocked unconscious five days ago in an ordinary law of roping a steer at a stockyard where he was driving cattle. He suffered concussion of the brain and never regained consciousness, finally contracting pneumonia.

The members are Col. Zachoricki, Col. Glogowski and Lieut. Zarychta.

### SOVIETS PLACE ONUS ON CHINA

Army Corps Reorganization  
Announced by Hoover

Program for Vast Public  
Works Brings Change

Appointment Fills Post  
Vacated by Jadin

MOSCOW, Sept. 17. (AP)—The Soviet government today declared that responsibility for further Russo-Chinese conflicts will be on the Chinese government. In a note handed to the German Embassy replying to Chinese notes of the 9th and 15th inst.

The Soviet government replied that, because of Nanking's repudiation of its own terms when signing the joint declaration and beginning the negotiations, the question of a place for further negotiations became meaningless.

The official news agency, Tass, said today that a supplemental proposal for the appointment by Russia of an assistant manager of the Chinese Eastern Railway was made by a Chinese representative to the committee of Chinese soldiers and Russian White Guards, or Czarist sympathizers.

Reports from Manchuria say that the Chinese army is modernizing its trenches along European World War lines.

## WESTERN BLOC BEING FORMED

Six Senators Band to Get  
Tariff Advantages

Statements in Conflict on  
Group's Purposes

Johnson's Action May Nullify  
Shortridge's Labors

BY LAURENCE M. BENEDICT  
Times Staff Correspondent  
WASHINGTON, Sept. 11. (Exclu-  
sive)—Six western Senators, in-  
cluding Hiram Johnson of Califor-  
nia, met this afternoon in the of-  
fice of Senator McNary of Oregon,  
chairman of the Senate Agricul-  
tural Committee, to effect preli-  
minary organization of a "western  
bloc for western products" in the  
present tariff struggle.

Present at the meeting in addi-  
tion to Johnson and McNary were  
Oddie of Nevada, Jones of Wash-  
ington, Thomas of Idaho and  
Steiner of Oregon, all Republicans  
and all, save Johnson, fairly "reg-  
ular" in their fealty to the Hoover  
administration.

The purpose of the meeting, ac-  
cording to those attending, was to  
form the nucleus of a group which  
will hold out to the bitter end for  
a better deal for the Far West in  
tariff framing than that accorded  
by the Hawley-Smoot bill. How-  
ever, conflicting statements by the  
Senators following the session gave  
no rise to doubt that any clear-  
cut program was agreed upon or  
that the proposed bloc can be or-  
ganized along lines that will make  
it stick together effectively.

**LEADERS ANNOYED**  
Word that such a far western  
movement was in the offing reached  
Republican leaders many days ago,  
and although they have been an-  
noyed with the prospect they have  
been powerless to head it off.

The first meeting of the new bloc  
broke just right for Senator John-  
son who, having been away all  
summer while the real work of  
writing the tariff bill was in pro-  
gress, eagerly embraced the oppor-  
tunity of appearing in the role of  
leader in the movement aimed at  
boosting the rates on California  
commodities.

Regardless of the case other  
States may have against the Haw-  
ley-Smoot bill, the general con-  
sensus among Californians here and  
back home has been that their  
State has been exceptionally well  
protected in the pending bill and  
there is fear that Senator Johnson's  
participation in the revolt move-  
ment that reared its head today may  
undo all that Senator Shortridge of  
California has accomplished with  
his long and arduous work with the  
Finance Committee.

**SHORTIDGE ON JOB**  
As a matter of fact, a movement  
for further increases in certain du-  
ties peculiarly necessary to the  
western country has been under way  
throughout the entire tariff con-  
troversy with Senator Shortridge a  
party to it. But it contemplated get-  
ting the higher rates by a ques-  
tion-and-answer method which would  
not arouse the opposition of Sena-  
tors from other sections who even  
as early as last June when the bill  
was before the House set up com-  
plaints about the manner in which  
California had fared in the revision  
of tariff rates.

Senator Shortridge has drafted a  
series of amendments which he in-  
tends introducing at the proper  
time, increasing the duties on cer-  
tain California products in need of  
greater protection than that car-  
ried in the pending bill, and he has  
reason to be confident of success  
with these amendments. But now,  
with Senator Johnson trying to  
make up for lost time and going  
militantly on the warpath for these  
same changes, there is no telling  
what the outcome will be.

The effect of Johnson's joining  
the new bloc if it actually devel-  
ops in serious proportions will be,  
it is feared, to throw the fate of  
the California schedules in with  
those of a dozen or more other  
western States, most of which do  
not have the same interests or the  
same sound tariff position enjoyed  
by California. It may be a case  
of forfeiting a position based on  
sound economic considerations to  
take part in a general "grab bag"  
and such an eventuality might prove  
disastrous indeed to California.

**AMENDMENTS AMPLE**  
The California schedules needing  
further upward revision are chiefly  
those on wool and live stock, cher-  
ries and almonds. The Shortridge  
amendments cover these, and  
number of other products of spe-  
cial interest to the State.

And they are the same ones John-  
son is setting up such a "who-  
about after having just arrived in  
the Senate yesterday after an all-  
summer absence.

When he came out of the meet-  
ing in McNary's office, Senator  
Johnson told newspaper men: "We  
are not complaining against rates  
other than those applied to west-  
ern products. They are not high  
enough. The West has not been  
taken care of properly. This is  
merely a movement to protect the  
products of the West. We are  
banding together to get what the  
West needs, and I believe we will  
be successful."

Johnson's explanation did not en-  
tirely coincide with that offered by  
other members of the group, some  
of whom were most outspoken in  
denunciation of the rates recom-  
mended for eastern industries, and  
who indicated very plainly that they  
are in for the broad, general bat-  
tle of the agricultural interests of  
the West against the industrial in-  
terests of the East. It is this bat-  
tle which may prove fatal to Cali-  
fornia tariff hopes if the State is  
hooked into it by Johnson. Sena-  
tor Shortridge so far has man-  
aged to steer the State clear of  
this sort of line-up.

**PHILIPPINE ISLANDS'  
FOREIGN TRADE GAINS**

WASHINGTON, Sept. 11. (AP)—A  
growth of approximately \$45,000,000  
in the foreign trade of the Philip-  
pine Islands for the year ending  
June 30, as compared with the pre-  
ceding twelve months, was reported  
to the Bureau of Insular Affairs to-  
day by Gov.-Gen. Davis. The total  
was \$315,446,256, with imports  
amounting to \$146,226,850, and ex-  
ports \$169,119,397. The increase in  
imports was about \$20,000,000 over  
the previous year, and that in ex-  
ports approximately \$24,000,000.

## SENATE IN FIRST VOTE ON TARIFF

Administration Wins Clash  
on Marking Imports

Several Switch Ballots in  
Reconsideration Roll Call

Hoover's and Mellon's Names  
Heard in Long Debate

WASHINGTON, Sept. 11. (AP)—The  
viewpoint of the administration  
group in the Senate prevailed today  
in the first voting on the tariff bill.  
By a 40 to 32 vote a committee  
amendment was adopted requiring  
that imported articles be marked  
conspicuously with the country of  
origin except in certain instances.

The bill was taken on recon-  
sideration of a previous rejection  
vote of 34 to 28. Eight Republicans  
joined thirty Democrats on the first  
roll call against the amendment, the  
eight being Senators Borah, Cut-  
ting, Howell, La Follette, McMaster,  
Norris, Nye, and Reed.

**VOTES SWITCHED**  
The last named, a Pennsylvania  
Republican, subsequently complained  
about that part of the amendment  
relating to place of marking and  
asked reconsideration on the ground  
that a majority of the members did  
not know what they were voting on.  
On the second roll call, six Repub-  
licans combined with twenty-  
six Democrats for it. Senators Reed  
and Howell were the Republicans to  
change, while Senators Trammell,  
Fletcher, Randall, Broussard and  
Pittman were the Democrats to go  
over for the amendment.

Much debate preceded the vote,  
the Democrats contending for the  
House language making it discre-  
tionary with the treasury in except-  
ing articles from the marking re-  
quiring there was too much discre-  
tionary power already lodged with  
the head of that department.

**MANGANESE QUESTIONED**

Names of President Hoover as well  
as Secretary Mellon figured in the  
ensuing debate. Senator Couzens,  
Republican of Michigan, a member  
of the Finance Committee, suggested  
that the President disclose the truth  
about reports that the President had  
asked the committee Republicans to  
place manganese on the free list.

Reading from the manufacturers' re-  
cord a statement purporting to  
quote Mr. Hoover in a speech in  
Colorado as saying that manganese  
mining required protection, Couzens  
demanded an explanation.

**THREAT BILL ADOPTED**  
Couzens said the committee first  
voted 7 to 4, to keep a duty on  
manganese and afterward voted 6  
to 5, to place it on the free list.

The vote on the marking amend-  
ment was followed by adoption of  
another committee change making it  
unlawful to import any written  
matter containing a threat against  
the life of any person in the United  
States, the House having mentioned  
only the President in this connec-  
tion.

Senator McKellar, Democrat of  
Tennessee, opened debate on the bill  
with an opposition speech in which  
he said if the bill passed as written  
the Republican party could not only  
"get by with stealing from the gov-  
ernment, but with murder."

**EXCEPTIONS OPEN**  
The present law respecting the  
marking of imported goods with the  
country of origin excepts only goods  
that might be injured by such  
branding. The House made no par-  
ticular exceptions, but lodged in the  
Secretary of the Treasury the power  
to waive the requirement as he said.

The amendment adopted today  
would require marking in a "reason-  
ably conspicuous place" of all ar-  
ticles except those incapable of be-  
ing marked where injury would re-  
sult and where expense of marking  
would be "economically prohibitive  
of importation."

Senators Walsh of Massachusetts  
and George of Georgia, Democrats,  
were vehement in their denuncia-  
tion of the Senate amendment, con-  
tending it would harm importers  
and tend to cut down shipments to  
this country.

Senator Reed saw in the opposi-  
tion argument an element of "com-  
edy" since the Republicans hereto-  
fore had been charged with plac-  
ing too much power in department  
heads and the amendment was de-  
signed to curtail such authority.

**MINORITY ATTACKED**  
Chiding the Pennsylvania Senator  
Harrison, Democrat of Mississippi,  
said "this wasn't the beginning of  
a comedy act" since Reed, in his  
speech yesterday, "assumed to speak  
for agriculture."

Senator Bingham also said he  
could not see any consistency in the  
Democratic arguments. The minor-  
ity, he said, usually was "against  
centralization of power," but now  
favored "giving the Secretary of the  
Treasury unlimited power to repeal  
a law of Congress."

Senator Robinson of Arkansas,  
the Democratic leader, expressed the  
hope that the Senator from Con-  
necticut, whom he described as a  
"great champion of States' rights,"  
would not "frustrate" his time re-  
stricting power in a purely admin-  
istrative matter and then vote to  
delegate the power of Congress to  
the executive in the making of tariff  
rates.

**LOS ANGELES DOCTOR  
TO WED NEW YORK GIRL**

NEW YORK, Sept. 11. (Exclusive)—  
A marriage license was issued here  
today to Dr. F. X. Wilhelm, 33  
years of age, a physician of 1401  
South Hope street, Los Angeles, and  
Miss Ann O. Ahrends, 27, a writer  
of 225 East Fifty-fourth street, this  
city. The couple said they will be  
married next Saturday.

## PARMELEE-DOHRMANN FLOWER AT EIGHTH SEPTEMBER SALE

The Group  
Shown Is

### FEATURING DIAMONDS

September 10 to 25

18-karat white gold with rich cut-out design. The diamond is set with an airline and one row of milgrains to accentuate its size. **\$50**  
Pay \$4.00 a month

The scroll design on this 18-karat gold ring is carried out with pleasing effect for the setting of the fine quality diamond. **\$75**  
Pay \$6.00 a month

The modernistic lines of this new diamond ring are very attractive. The brilliancy of the high quality diamond radiates from the star effect setting. **\$100**  
Pay \$8.00 a month

The fine quality center stone in this late creation blends into the design together with two smaller diamonds: 18-karat white gold is the metal. **\$110**  
Pay \$9.00 a month

Hearts are the motif in this distinctive ring and into each is set a finely cut diamond. An interwoven sentiment proclaiming it an ideal engagement token. **\$125**  
Pay \$10.00 a month

Extreme latitude was allowed the designers to fashion this gorgeous ring. Six smaller diamonds play their part in adding life to it. The center stone is Slavick's finest quality diamond. **\$165**  
Pay \$12.00 a month

Six perfectly cut diamonds constitute the design of this ring. The fine quality center stone stands in bold relief, completely void of ornaments. **\$210**  
Pay \$17.00 a month

Exquisite grace and refinement characterize this diamond ring of quiet simplicity. The fine quality center stone is set in the modern four square prongs. **\$300**  
Pay \$24.00 a month

A platinum creation of extremely delicate workmanship. Eight diamonds artfully woven into the design make this an elaborate setting for the fine quality center stone. **\$365**  
Pay \$29.00 a month

Man's onyx ring of 14-karat green gold. Substantially made. The fine quality diamond is set in a white gold square, making a striking contrast with the black onyx. **\$110**  
Pay \$9.00 a month

Man's ring of 14-karat green gold. The background is darkened, which brings the carved design out in bold relief. The fine quality diamond is set in a white gold top. **\$150**  
Pay \$12.00 a month

A very distinctive ring for a man. It is of white gold and has two diamonds down each side of the marvelous center stone. **\$765**  
Pay \$61.00 a month

Platinum bracelet of surpassing elegance. Beautifully designed and most distinctive in appearance; 77 diamonds with genuine oriental sapphires. **\$1500**

## MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips' Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-belching, frequent vomiting, fretfulness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases. A teaspoonful of Phillips' Milk of Magnesia does the work of half a pint

of lime water in neutralizing cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book "Useful Information." It will be sent you FREE. Write The Phillips Co., 117 Hudson St., New York, N. Y.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1873. —Advertisement.

## AIR-MAIL LINES CREATE DEFICIT

Year's Cost \$15,000,000 With  
\$13,000,000 Available

Postal Department, However,  
Plans No Curtailment

Forthcoming Conference to  
Readjust Expenses

WASHINGTON, Sept. 17. (Exclusive)—Despite the fact that, based on the figures for July, operating expenses for the air-mail service for the present fiscal year will approximate \$15,000,000 or more, while the total appropriation is but \$13,000,000, there is no thought in the minds of postal officials of curtailing this service in any particular. This was made plain today by W. Irving Glover, second assistant postmaster-general in charge of the air-mail service.

Mr. Glover pointed out that at the forthcoming conference between the department and the airlines, scheduled to begin the 30th inst., it is expected that such readjustments in rates of pay to these contractors will be made as to effect a saving sufficient to meet the threatened deficit in the service. A rate of pay, with a cut approximating \$3,000,000, it is

## BIG-HEARTED RACKETEERS FALL FOR CHARITY BUNCO

CHICAGO, Sept. 17. (AP)—Gang racketeers knew today what it feels like to be fall guys in a racket. They found out that they themselves had been racketeered out of between \$50,000 and \$100,000.

The money was collected ostensibly for a defense fund for Wee Willie Doody and Eddie Mack, held on murder charges. Racketeers and others of the underworld were called upon to purchase \$5 tickets to a "hoodlums' banquet," which was to have been given last night.

Pat Roche, chief investigator for the state's attorney, learned of the banquet plan and went with his raiders to the Maroma Inn, where it was to have been held. The inn was closed. A tour of other roadhouses failed to disclose any banquet. Roche was convinced that whatever sum had been collected in the ticket sale—estimates ran as high as \$100,000—it would never get nearer the Doody defense than the pockets of the racketeers who collected it.

those requiring night flying. This route now is lighted only a portion of the proposed way, from Columbus, O., to Indianapolis, Ind.

NO CURTAILMENT

The department must provide the facilities for night flying along these routes and it is not expected that even when the interdepartmental committee acts on the various proposals now before it the routes will be ready for operation before the beginning of the next fiscal year when a new appropriation will be available for the air-mail service.

"Looking at the situation from every standpoint," said Mr. Glover, "there is no idea in the minds of the Postoffice Department officials to curtail any of the routes now in operation, but on the contrary it is believed there will be sufficient money available when the time comes to take care of any normal and reasonable expansion of the air-mail service throughout the country."

## HOOVER WILL VISIT MIDWEST

Four-Day Trip to Detroit and  
Cincinnati Planned

Laboratory and Waterway  
Openings to be Attended

President Also Hopes for  
Dash Down to Texas

WASHINGTON, Sept. 17. (AP)—President Hoover is preparing to make one four-day trip into the Middle West next month and may follow it shortly afterward, if the congressional situation permits, with a visit to Texas.

His Middle Western trip, as tentatively arranged, will take him to Detroit, Cincinnati and Louisville, leaving Washington October 20. He plans to arrive at Detroit in time to attend the dedication of the Edison laboratory at the near-by Ford plant the next day, and then go to Cincinnati for the opening of the new Ohio River waterway project October 22.

After the Cincinnati celebration, his tentative itinerary calls for a trip aboard a river steamer through a number of the new Ohio River locks to Louisville. He would speak in all three cities, the address at Louisville being made aboard the steamer upon its arrival and broadcast over a nation-wide hook-up.

Plans for the Texas trip have not reached such a definite point, being dependent upon adjournment of Congress late in October or early in November. The President is still hopeful, however, that he will be able to attend the Galveston purchase celebration at El Paso and visit Dallas, Houston and several other cities in Texas.

## SCREEN GRID

### Lowboy Model

# \$129.50

Tubes extra

IN THIS handsome Lowboy you have not only the well-known advantages of Screen Grid, but also the Philco Balanced-Unit principle, which has actually revolutionized radio. You can have all of this now for the amazingly low price of \$129.50.

Think what it means:

**Philco Tone**—truer, richer, clearer—than that of any radio you've ever listened to—

**Philco Selectivity**—that brings in, sharp and distinct, station after station you've never been able to separate before—

**Philco Distance Ability**—that reaches out for thousands of miles in every direction—

**Beautiful Cabinet**—paneled in rare and costly woods.

Never before has so small a price  
bought so much in radio

**FREE DEMONSTRATION**  
IN YOUR HOME

The nearest Philco dealer will cheerfully arrange a demonstration in your home. Get in touch with him at once.

**Easy Payments**

You can buy Philco on a small down payment—balance monthly plan if you wish.

### The New Philco Lowboy

Handsome Walnut Cabinet, paneled in such costly woods as Matched Oriental Walnut, Bird's-eye Maple—and others. Equipped with genuine Electro-Dynamic Speaker and Acoustic Equalizers. Push-pull amplification. Balanced to take TWO of the wonderful new 345 power tubes. Never has such performance and appearance been available at such low cost.

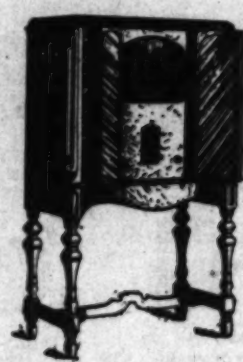

This same handsome Lowboy can be had with the Philco NEUTRODYNE-PLUS, \$139.50. The most amazing distance getter in radio. Pacific Coast owners, in good locations, write of getting Japan, even Australia. Cross-continental reception is not uncommon. Under favorable conditions this Philco Neutrodyne-Plus will outreach any other set on the market.

## TRAFFIC-DEATH TOTAL GHASTLY

Fatalities for Six Months in  
State Mount to 1010

Biscailus' Report Shows  
15,630 Others Hurt

Ninety Per Cent of Mishaps  
Laid to Carelessness

SACRAMENTO, Sept. 17. (Exclusive)—During the first six months of 1929, 1010 persons were killed and 15,630 injured in automobile accidents in California, according to figures made public today by Frank Snook, chief of the State Division of Motor Vehicles.

The figures were compiled under the direction of Eugene W. Biscailus, superintendent of traffic patrol, who declares that 90 per cent of the accidents that resulted in death or serious injury could have been avoided had the motorists exercised reasonable care.

### PEDESTRIAN TOLL

A total of 3581 persons were hurt in pedestrian accidents, 344 of which were fatal. Biscailus declares these figures emphasize the urgent necessity of more careful driving in the city districts where most of the pedestrian accidents occur. Most of the pedestrians killed were persons more than 55 years of age.

Pedestrian accidents also took a heavy toll among children between the ages of 5 and 14 years, thirty-two in this age group being killed and 100 injured. Grade-crossing accidents were heavy as usual, sixty-nine persons having been killed and 180 injured during the six months period. Crashes with street cars resulted in twenty-four deaths and the injury of 350.

### AUTOS SAFE IF

The report shows 988 accidents in which drunken drivers were involved and of these forty-two proved fatal.

"A remarkably small number of accidents occurred," says Biscailus, "in which faulty mechanism of automobile was blamed. Of the 18,350 cars involved in wrecks of one sort or another, 17,428 were in apparently good condition.

"Detective" makes the list of mechanical faults that caused accidents. Nine were killed because of defective steering apparatus, fourteen in accidents caused by poor or faulty headlights and ten by defective brakes and blowouts. The automobile is nearly 100 per cent safe if driven properly.

## SHE MAKES RUM RUNNERS FLEE

Artist Rains Lead Among Bootleggers

Mrs. Smith and Her Pistol (P. & A. Photo)

BROCKTON (N. Y.) Sept. 17. (Exclusive)—Anna Clift Smith, 31-year-old artist and expert marksman, today was called one of the most valuable allies to prohibition law enforcers, despite the fact that she is not in the employ of the government or State.

The reason? Mrs. Smith on various occasions in the recent past, has made life miserable for rum runners and bootleggers who have attempted nocturnal landings of Canadian liquor cargoes on the beach of her estate near here. She has fired on rum boats on many occasions, and has co-operated with custom officials, State troopers, Coast Guards-

men and Federal prohibition agents in an effort to smash a booting ring which supplies ale and beer to Western New York, Pennsylvania and New Jersey markets.

And while Mrs. Smith may have gained in favor with law enforcement agents, she has acquired the enmity of liquor runners, for six attempts have been made on her life. And she goes right on upsetting their plans.

### ROBBERS GET PAY ROLL

KANSAS CITY, Sept. 17. (P)—Three robbers today held up two employees of the Sears-Roebuck plant here, obtained a pay roll of \$8517 and escaped.

## AUSTRALIA VOTE STIRS FILM MEN

Americans Enter Antipodean  
Political Arena

Quota on Pictures and Tax  
Law Cause Interest

Large Sums Being Expended  
on Propaganda

MELBOURNE (Australia) Sept. 17. (P)—The United States film industry, according to various reports, is taking active steps for a vigorous campaign in connection with the Australian general elections, to be held October 12, next.

This will be the first time outside interests have intervened in Australian politics. The reason is the Dominion's strict regulations governing the proportion of American moving pictures in relation to British films and also the government's methods of taxing amusements.

The American moving-picture industry is said to propose spending a great deal of money, employing 200 organizers, using 150 talking films in 1929 moving-picture and legitimate theaters throughout Australia, and showing 6000 slides in 800 small country theaters free of charge. The motion-picture interests also are said to plan to lobby at the disposal of political candidates a great barrage of propaganda opposing extra taxation of amusements.

Prime Minister Stanley Bruce, Nationalist leader, has announced important modifications in the government's proposals to tax amusements receipts. The government recognizes that any attempt to levy on the large profits which led to the building of luxurious picture palaces in large cities will be strongly opposed by powerful interests. These are largely American in affiliation and outlook, he says, adding that these interests indulged in theatrical and sensational propaganda.

### RADIO LICENSES GRANTED

WASHINGTON, Sept. 17. (P)—The Federal State Marketing Service today was granted licenses for seven high frequency stations in San Francisco, Sebastopol, San Jose, Los Angeles, Sacramento, Brawley and Salinas, Cal.

## CONTROL ASKED OVER AIR LINES

Regulation by Government  
Urged by Bratton

Senate Inquiry Into T.A.T.  
Wreck Also Sought

Bingham Opposed to Putting  
Planes Under I.C.C.

WASHINGTON, Sept. 17. (P)—A suggestion for government regulation of passenger planes was heard in the Senate today when Senator Bratton, Democrat of New Mexico, called for a Senate inquiry into the wreck of the Transcontinental Air Transport plane which crashed recently in New Mexico with a loss of eight lives.

In his resolution Senator Bratton asked that the Senate investigate the cause of the crash, the kind and character of legislation needed to accomplish that result.

The resolution was forced to its order a day by Senator Bingham, Republican, Connecticut, who voiced an objection to placing the airplane service under the Interstate Commerce Commission. He urged that the Department of Commerce be continued as the arbitrator for the air.

Bingham said he will propose later some legislation to give the Commerce Secretary greater authority in making inquiries into air accidents.

Bratton called for an interpretation of whether airplanes engaged in interstate business are common carriers, and therefore subject to interstate commerce regulation.

The Bratton resolution calls for investigation into the causes of the crash of the Transcontinental plane, and a thorough study of the safety methods employed by those engaging in an airplane passenger business.

### HEMIE CURIE TO SPEAK

CANTON (N. Y.) Sept. 17. (P)—Mrs. Marie Curie, the scientist, will dedicate the new Hepburn Hall of Chemistry at St. Lawrence University, the faculty announced today.

## AT YOUR SERVICE

Cold mornings and evenings are coming! Now is the time to have your gas furnace "tuned up." Don't wait for the first cold spell—expert furnace men will then be busy.

Call a Payne Service Man today—whatever make your gas furnace may be. Your furnace should be adjusted properly right now—right at just the right height, leaky pipes or doors repaired, burners cleaned and the flow of gas regulated so that you will have cheerful, comfortable heat at the lowest fuel cost. # Frigidaire has the added power that keeps foods fresher...longer...

and the famous "Cold Control" that makes desserts better and ice cubes quicker

amine the smooth exterior and interior surfaces; the rounded corners; the waist-high shelves. Note the quietness of operation. The new Frigidaires are so incredibly quiet that you don't hear them start, stop, or run. Visit our showroom at your first opportunity. Ask us about the easy monthly terms.

The Frigidaire "Cold Control" has introduced a new standard in electric refrigeration. It is as important as a gas regulator on an oven.

FRIGIDAIRE has a surplus of power. Even when the thermometer climbs high in the nineties there is power to spare for emergencies. By its position in the cabinet the powerful Frigidaire mechanism is made still more efficient. It is enclosed in a special compartment at the bottom... where surrounding air is the coolest. It is out of sight and out of the way with nothing to catch dust or dirt. Frigidaire maintains a low uniform temperature in the food compartment without fluctuation. You never have to think about it. And in the dessert and ice-making

compartment it is also regulated automatically. But if you want extra-quick freezing temperatures you can have them... whenever you wish... by simply turning the lever of the Frigidaire "Cold Control." The "Cold Control" gives you your choice of six different freezing speeds. It enables you to freeze an abundance of ice cubes easily and quickly. It permits you to make a wide variety of unusual desserts that require extreme cold. The Frigidaire "Cold Control" is found on no other electric refrigerator. See the Frigidaires now on display. Ex-

## INTERNATIONAL BANK DESCRIBED

Proposed World Institution Important Factor

Will Act as Clearinghouse of Nations' Debts

Main Function Holding Up Exchange Parities

"This is the third of a series of articles, based on information derived from authoritative sources, describing the purpose, plan and operation of the Bank for International Settlements, the collecting and distributing agency to be formed to facilitate the working of the Young Plan and the payment of war debts due the United States and other nations."

BY WILLIAM H. FORT  
Copyright, 1929, by the Chicago Daily News and the North American Newspaper Alliance.

NEW YORK, Sept. 17. (Exclusive)—As an aid to German solvency the Bank for International Settlements, it is believed, will be established by aiding Germany it will react to the benefit of Germany's creditors by obtaining for them payments in large amounts and in a shorter period than would otherwise be possible. The international bank will simplify the mechanics of Germany's payments, for, as regards the transfer of reparations, its operation will be simple—carrying on in international credit the function an ordinary bank performs for its clients.

**BANK FOR WORLD**  
When set up it will work in cooperation with the central banks of the world—the Bank of England, the Bank of France, the Bank of Italy, the Federal Reserve system of the United States, and so on.

The expectation is that the directors of these central banks will be directors and their banks depositors in the new world institution. That would make it possible to simplify transfers of money between Germany and the other nations and to avoid unusual disturbances in rates of exchange.

According to the scheme as now worked out, Germany will deposit her funds in payment of her reparations obligations in the Reichsbank, the central banking institution in Berlin. The Reichsbank will redeposit these funds in the international bank. Then, when time for a reparations payment comes due, the Reichsbank will draw checks against those deposits in the international bank to take care of the debt payments.

**CLEARINGHOUSE, TOO**  
The international bank will place the funds, in proportionate amounts, to the credit of the accounts of the central banks of Germany's creditor nations. If, out of the funds so placed, France, for example, wishes to make a payment to the United States, France will give such instructions as are necessary to the international bank, which will then purchase the necessary currency to make the transfer.

This is expected to result in mutual benefits to Germany and her creditors in time saved, in the equalizing of international credits and in the saving of large sums on both sides to the general benefit, savings due to the careful watch on world conditions and international exchange by the directors of the international bank.

**CONFIDENCE GIVEN**  
Feeling of security in the international bank because of its being under control of the central banks of the world is predicated upon a feeling of confidence in the central banks. The organizers of the reparations bank had this confidence and they expected it would be shared by the people of the world.

A central bank is not organized for profit but as an agency to stabilize the whole economic machinery of the country in which it operates. And its acts reflect themselves upon all business within that nation.

In the United States, for example, the Federal Reserve system functions as a central bank. The twelve Federal Reserve banks which make up the system are supervised in their operation by the Federal Reserve Board, of which the Secretary of the Treasury is ex-officio the head. In each Federal Reserve bank three of its nine directors are appointed by the government. Of the six remaining directors, all of whom are elected by the banks in the Federal Reserve district, two go to make up the membership, three are bankers and three are business men. The latter, theoretically at least, represent the borrowers rather than the lenders.

**SAFEGUARDS MADE**  
The government directors are not permitted to own any bank stock and must be disinterested. And the head, or governor, of each bank also is elected and cannot be a director, although he sits with the directors at their meetings.

Therefore under this diversified direction the people of the United States have reasons for confidence in their central bank system. The reserve banks are not permitted to deal directly with the public. They act for their members as agencies from which help may be expected when difficult times arise.

One of the Federal bank's chief functions is the fixing of the discount rate—the rate which the banks must pay for money borrowed. The making of this bank rate is more significant than at first appears. It affects the volume of currency and the elasticity of credit. In effect, it increases or diminishes the value of money. As a result, according as the rate is low or high, the debtor pays more and his creditors are benefited, or the converse is true.

**AFFECTS EVERYONE**  
Therefore every wage earner and every business man is affected by it; the wage earner in the changed purchasing power of his earnings and the business man in the ease or difficulty he encounters in obtaining money and credit.

Just as the Federal Reserve banks of the United States, then, function to stabilize and conserve the economic resources of the country, so the international bank is expected to stabilize and conserve the economic resources of the world. The representative of each nation, the experts believe, can be counted on to look after the interests of his own country, but the common good is not to be lost sight of in a wild and selfish scramble.

(The next article in this series will be published tomorrow.)

## Tomorrow Opens

# THE MAY COMPANY'S PAGEANT OF PROGRESS

Beginning Tomorrow, Thursday—  
a Series of Dramatic Selling Episodes in Urgent Preparation for the Opening of Our New Building

**ACTION!... GROWTH... ACHIEVEMENT**  
... the true Los Angeles spirit... an inspiring motivating May Company ideal!

**GROWTH!**—Today, The May Company stands at the threshold of new accomplishments... another stepward in the epochal six magic years, which have more than doubled the size and volume of this business not only placed this store the leader and largest institution in all the West... but have won for it the honor of all... a solid place in the affection and confidence of all Southern California.

**ACTION!... Urgent... Imperative... Immediate**  
action is necessary in preparation for the opening of our new building. Already the massive steel structure is up and soon this vast building will be ready!

Magical changes... interesting transformations... arrangements of sections are already taking place... escalators are being installed... many departments are being moved... many already are moved! Over a square feet of floor space must be re-arranged... a colossal task!

And logically to expedite this great task of moving and arranging over one hundred large departments, immediate readjustment of their stock is imperative... you have the reason... the real cause of this generous fortune.

**An Imperative Two Million Dollar "Let Go" of New and Fashion-Right Fall and Christmas Merchandise... Right at the Very Forefront of the Season!**

Thrilling news that will sweep the city! A million eager eyes will scan this page... for which The May Company makes a statement of this character everyone knows that something extraordinary is about to happen!

**Important!** Every item in this Pageant of Progress is selected, tested and personally examined by an expert committee of merchandising experts... before it is allowed to enter this event.

Every department... every section... every floor in the whole store participates. What unexpected, rare good fortune... what a wonderful chance, this, to buy and save on our new Paris-styled Autumn apparel... on all our furnishings of character and good taste for the home.

One thing is certain... the thousands who will be quick to grasp the significance of this unexpected opportunity... and who will start immediately to buy for months ahead and especially for Christmas... will have every good reason to congratulate themselves on their sound judgment later. Remember, there will be no more May Days!

**Watch for 8-Page Circular at Your Door**

Make no mistake. Every little box in this circular contains a bona-fide Big Saving. In fact, many items justify a full page. Every item has been selected with great care—and represents a genuine and unexpected rare value—to quickly and immediately move these goods.

**Also Please See This Evening's Papers for Full Details! Be Here Thursday!**

## The TOWN HOUSE

METROPOLIS, such as Los Angeles is rapidly becoming, has demanded "The Town House" as a monument to the perfection attained by the modern Apartment-Residence.

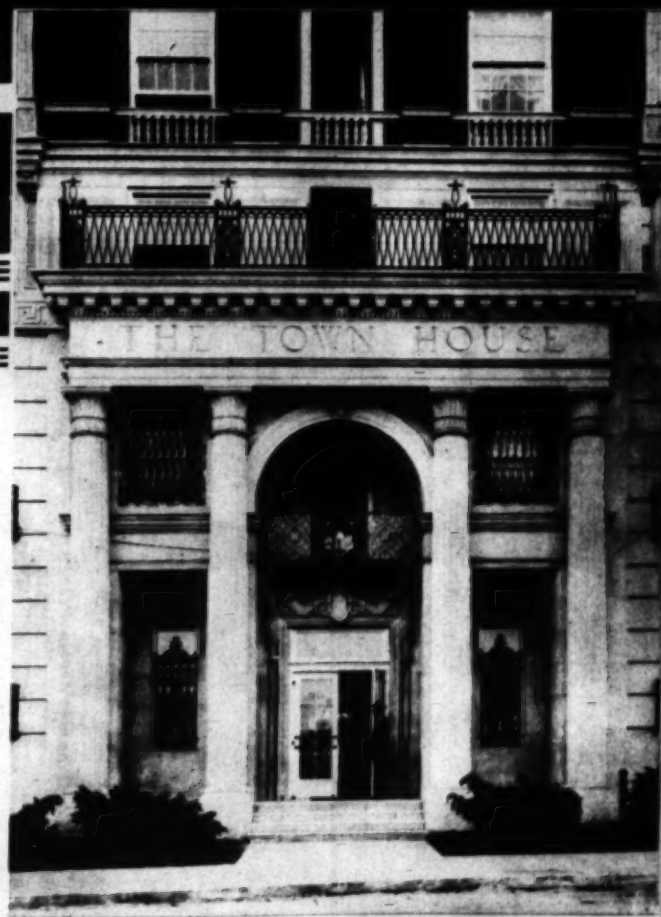

On Wilshire Boulevard, fronting on Commonwealth Avenue, and forming a massive and distinguished background to the beauties of Lafayette Park, which it overlooks, "The Town House" opened its doors. Situated in the heart of Los Angeles, yet its atmosphere of cosmopolitanism and the charm of its simplicity, are reminiscent of the distinguished refinement of the best homes.

Enjoying eleven acres of beautiful Lafayette Park as a garden, and with more than an acre of private grounds, "The Town House" is surrounded by sunshine, trees, grass and flowers for both children and grown-ups. Trained governesses will be employed by the House, into whose care children may be confided.

For the ladies of the family "The Town House" will be a social center of distinction. For them the irritating worries of housekeeping, with its attendant servant problems, disappear.

In entertaining in her own home in "The Town House" the hostess has available to her the choice of dinner prepared in her apartment by a chef furnished by the House, a butler to serve, and a maid to follow to do the necessary housework in the kitchen and dining room. Or she may order dinner from the Restaurant, served in her apartment, for which purpose a special staff will be permanently maintained on each floor.

One of the Lovely Views from an Apartment

Beautiful View of the Town House from Lafayette Park

### A CULTURAL Monument

Architecturally and structurally "The Town House" would emerge favorably from comparison with the most modern edifices to be found anywhere on this continent and will unquestionably enjoy not only local but national renown.

Familiarity with the best Apartment-Hotels in the East permits us to offer a Service in "The Town House" more advanced and complete than anything hitherto achieved.

**FATHER CLUBS  
HIS OWN SON**

With Skull Fractured, Small  
Boy Fights for Life

Parent Knocks Out Jailor,  
Tries to Choke Captor

Asserted Thief on Way to  
Jail Aids in Arrest

SAN DIEGO, Sept. 11.—Shackled to a steel cot in a jail cell, with his features bruised and cut from his encounter with police today, George Zehr, 41 years of age, is being held in solitary confinement following his arraignment in Judge Eugene's court today on a charge of assault to commit murder.

George Zehr, Jr., 7-year-old son of the asserted attacker, was fighting gamely for his life in the County Hospital despite a fractured skull and concussion of the brain inflicted by his father, according to police.

After police had shackled Zehr, following the latter's clubbing of jailer R. McPherson, in the City Jail, two physicians examined the prisoner for insanity. Dr. Elmo Crabtree, assistant police surgeon, said in his opinion Zehr was sane. Dr. T. C. Little, county alienist, then examined Zehr and did not disclose his findings but advised police to obtain complaints against Zehr and transfer him to the County Jail awaiting trial.

**PUT IN SHAKES**

After beating his son on the head with an iron pipe at thirty-second and San Marcos streets, Zehr ran smack in the City Jail and, after attempting to choke his captors, Edward Reis, wrestled a club from McPherson and beat the latter into unconsciousness. Zehr was subdued only when police rushed into the jail and confined him in shackles.

Reports on condition of the boy indicate he is not expected to live. The attack occurred shortly after 3 a.m.

Police say Zehr had a disagreement with his wife and left for Los Angeles with the boy. The wife had left the house at 27th and San Marcos streets and Zehr, after attempting to choke his captors, Edward Reis, wrestled a club from McPherson and beat the latter into unconsciousness. Zehr was subdued only when police rushed into the jail and confined him in shackles.

Reports on condition of the boy indicate he is not expected to live. The attack occurred shortly after 3 a.m.

**GLENDALE TUNNEL URGED**

Proposal Made to Bore Through Verdugo Mountains  
to Connect With La Crescenta Valley

GLENDALE, Sept. 17.—Proposals to construct a tunnel between this city and La Crescenta Valley through the Verdugo Mountains was presented to the City Planning Commission by John R. Grey, realty broker, who declared that such a project, though it might cost several millions, would more than pay for itself in increased property values in the areas that it would open up in the hills to the north of the city.

Grey was authorized by the commission to ask for a conference with the county engineering department in order that he might place the plan before the officials, and to ask for a survey on the north side of the mountains in the La Crescenta Valley. Local engineers, it is stated, already have sufficient data to permit consideration of the approaches from the southern end. Commissioners A. R. McCleave and Frank H. Olmstead, both engineers, estimated that the proposed tunnel might be 8500 feet in length, with an approach of about a mile through Brand Park Canyon and another approach of about the same length in Baldridge Canyon to the north. This would mean a difference of about 600 feet in the elevation of the southern and northern entrances to the tunnel, which would slope northward on an 8 per cent grade, it is stated.

The cost is estimated at \$6,000,000 with another \$200,000 for the approaches. McCleave held that the tunnel would open up a large area back in the hills, but Olmstead maintained that the natural objection that motorists have to using tunnels would prevent their use of the route at night.

The recommendation is the statement that no evidence has been produced to indicate that hunters or fishermen were responsible for setting brush or forest fires in Southern California mountains or lowlands.

The recommendation also advised supervisors that the organization is always seeking to prevent fires and that the members are primarily interested in preserving the Southern California natural resources and there is no record of sportsmen ever having been responsible for fires. The Inak Walton League asserts the mountains have not and should not be closed during most of the season.

Glendale, Burbank and Los  
Angeles Want Water

All Above Unwillingness to  
Start Court Battle

Contending Sides Stand Firm  
for Their Views

GLENDAL, Sept. 17.—Officials of Los Angeles, meeting last night with executives of this city and Burbank to discuss the water situation as it affects the three cities, expressed their unwillingness to start any litigation to enforce what they hold to be the rights of Los Angeles, but stated that, unless some amicable solution of the difficulty could be reached, they would be forced to appeal to the courts for protection of their asserted rights.

The meeting was held in Sunset Canyon Country Club and the conference lasted several hours while every angle of the water situation was discussed.

W. B. Mathews, counsel for the Los Angeles Water and Power Bureau, insisted that Los Angeles must take steps to protect its interests in the underground water flow of the San Fernando Valley basin, from which it is charged that Glendale and Burbank are now drawing water for city and domestic use.

"Your communities have benefited from our Aqueduct expense without contributing anything toward it," Mathews told the Glendale and Burbank officials. "If it comes to a show-down we are going to sue you to have our water rights affirmed by the courts. You are taking all the water you can get and doing nothing to relieve the situation."

Mathews reviewed court decisions covering the issue, going back as far as the original grant of the flow of the Los Angeles River in pueblo days.

The city councils of Glendale and Burbank will hold a joint conference and, if a course of action can be mapped out, they will call for another meeting with the Los Angeles officials in an effort to reach a settlement of the problem without entering into prolonged litigation.

**NEW COURT CONVENES**

First Session of Recently Organized Fourth District  
Appellate Bench Held at San Bernardino

First business of the court was to make minute entries of Gov. Young's appointments to the bench on the court records. Appointment for the clerical staff attaches for the bench were then announced by Justice Glendon.

Preparations were made for the second meeting of the justices next Tuesday at 2 p.m. At that time a general discussion will be held to determine how sessions in the three cities on the appellate circuit will be held. The meeting places throughout the year are to be San Bernardino, Fresno and San Diego. It was at first planned that the court should sit a straight session four months of the year at each city.

Attempt will be made to discard this plan as it was found that the court would be too busy to handle the taxpayers maintaining a full retinue of court officials away from home headquarters. Justice Glendon declared today that if it were found practical the schedule of the court would be arranged so that it would not be necessary to keep the bench staff away from central headquarters for more than a few days at a time.

It is planned that the central point of session should be in this city and that calendar insertions could be based on the correct date here. The first calendar of the appellate bench in this city will be prepared October 13, the justices announced.

According to advance estimates there will be twenty-three entries on the first recording, these being three criminal cases and twenty civil. All of these appeals which are to be considered by the appellate bench of the Second Appellate Court and originated in the district now served by the new territory.

**"FIXING" CASE  
INQUIRY**

San Diego County Grand Jury  
Investigates Alleged Fixing of  
Cases

San Diego County Grand Jury today began an investigation of alleged fixing of cases by the district attorney's office.

The grand jury was organized yesterday and its first business was to make minute entries of Gov. Young's appointments to the bench on the court records.

Two suspects in the case were named today by the grand jury. They are the district attorney and the assistant district attorney.

Asheville look upon it as one of the most outstanding developments in Aviation in recent years. Will it bring radical changes in the Automotive as well as Aviation industries? Who knows?

In a recent test flight from Danville to Langley Field, Virginia, the new motor consumed only \$4.50 worth of fuel, according to report. An ordinary airplane engine would have consumed six times that in cost and, at about \$27.00 worth.

### Lindbergh Pleased With It

Lindbergh, in a flight with Thomas Lauphler, August 1, tested the new Diesel airplane motor and expressed himself being highly pleased with it. He is the first person outside the Packard staff to fly with new engine.

# Bar Association Committee and Judge Declare Shuler's Jury Charges Without Basis

## FUROR RAISED IN PANTAGES CASE

State Thunders Objection to Proof Offer

Defendant on Stand Denies Having Drinks

Jurors Locked Up While Lawyers Battle

(Continued from First Page)

should have been an operation at this time.

"We will prove that the nitrous oxide and ether which was given as anesthetic should never have been given."

"We will prove that the hip dislocation for which the operation was attempted had nothing to do with Rokumoto's death."

"And, last, we will prove that Rokumoto was asphyxiated by the nitrous oxide and ether and did not die from his injuries."

With this Attorney Steuer set down and Prosecution Counsel, Jones and Van Cotte arose in mass.

### ARGUMENT BEGINS

Then began one of those humorous things often seen in courtrooms with both sets of attorneys attempting to prove their points by using the same set of legal cases and opinions. For hours the battle raged between attorneys and the court with the jury locked in the jury room where the five women and seven men had been sent by Judge Hardy as soon as the argument began. The legal tilt ended at 4 o'clock in the afternoon with the end of the session of court and a decision will be handed down by Judge Hardy to-day.

If the defense wins then Mrs. Fraser will be heard and Rokumoto's words will go into the record and will be followed by the medical testimony which Steuer promised the court would show that the Japanese died from the anesthetic and not from the accident.

If the prosecution gains their points then Mrs. Fraser cannot testify and it is doubtful if any of the medical experts will be called by the defense although Doctors A. E. Gallant, F. W. Renkenberg, Francis L. Anton, F. W. Beaumont and Walter Bayley were in the courtroom yesterday afternoon ready to testify.

Before the Steuer offer to prove had become the sensation of the day Mrs. Fraser's appearance on the stand had held the center of attention in the courtroom as the outstanding event.

She was called as the first defense witness of the day after the first part of the morning session had been taken up with the examination of Rev. R. P. Shuler and a couple of other witnesses.

### DEPENDANT CALM

Mrs. Pantages took the stand dressed in deep black from head to foot with the exception of a cream-colored waist, a necklace of black coral. She made a queer little half bow to the judge and the jury and then turning to the witness box to face the five women and seven men who will decide her fate played into her account of the accident under the direction of Steuer.

First Mrs. Pantages told of a week-end at her beach home. Then she testified that with Mrs. Jacobs, a former defense witness, she drove into the city and after a stop at the Jacobs' home drove to Beverly Boulevard and Western, where Mrs. Jacobs got out. Then, she declared, she started for her home.

From the huge street map in the courtroom Mrs. Pantages traced her route for the jury, speaking in a clear voice. She told of the street upon which she drove and then pointed them all out with a marker.

"I turned on Sunset and tried to get into the middle of the street," she declared.

"An automobile passed me on the right and tooted the horn to shove me over."

"I thought that I had been going and then suddenly the car crashed itself. I don't know how I got out of the car. I don't remember being at the hospital and I don't remember being taken home."

And then still under the direct questioning of Steuer, Mrs. Pantages denied drinking any intoxicating liquor.

"I never had a drink," she declared. And then to another question she denied having any other accident on that day or any other day as testified to by prosecution witnesses. Then the direct examination closed.

With the end of the direct testimony.

## YOU LITTLE DEER, COOS PILOT

Fawn Early Proves to be High Flyer

Contact and Aviator Charles Widmer

AND NOW comes Contact, the latest flying mascot! There have been flying dogs and flying cats and flying marmosets; but Contact is a fawn. He occupies a place in the cockpit beside Charles Widmer, a pilot of the Aero Corporation of California, who introduced him to Los Angeles yesterday upon alighting at the company's field at Ninety-fourth street and Western avenue.

Widmer captured the frail little animal, which is only 8 weeks of age, in the mountain fastness of Mexico, and promptly appropriated him as a living talisman, giving him for a name the word that is familiar to all airmen. Before flying the fawn across the border, however, Pilot Widmer found it necessary to obtain the joint permission of the United States and Mexican governments. But he said yesterday the fawn's companionship is compensating him for the trouble.

money and before Prosecutor Costello could take up the cross-examination into the courtroom filed twelve Japanese all charged with some kind of an offense and while they stood in a straight line before the judge the murder case, where a white woman was charged with killing a Japanese, came to a halt.

With the departure of the twelve Japanese, headed along by a court clerk to some other department, the cross-examination began and then ended almost as suddenly.

Mrs. Pantages was asked only two or three questions and made short denial in answer. Then she was examined. But not before she had denied again having a drink, denied ever having taken any of the prosecution witnesses and denied driving on the wrong side of the street as testified to by prosecution witnesses.

At the very beginning of the day's session, John Costello, a defense witness, was called to the stand by Judge Hardy after the court had announced that the witness was returning to clear up some dates which he had given incorrectly at his former appearance.

Mrs. Catherine Mulachy, another defense witness, then was recalled by the prosecution for further cross-examination and left the stand after making complete denials to questions relative to an asserted difference of opinion between her and Mrs. Jacobs following the accident. She was followed by Mrs. Pantages.

With the end of the case in sight it was believed by courtroom observers that if the testimony offered by the defense yesterday is admitted by the judge the case will close in about two days. On the other hand if the testimony is ruled out then the case may come to an end today. Court will convene at 10 o'clock this morning.

## DELOREY CASE UP ON TUESDAY

(Continued from First Page)

dear represented by counsel, it is expected Mayor Porter will send in some of his "investigators," who it is supposed, have been gathering the evidence. The appearance of the witness stand of W. J. Mosher, the Mayor's \$250-a-month "investigating" secretary, and Marie Allen, who is now on the pay roll of the City Prosecutor, but assigned to the Mayor's office, is widely heralded as promising an exciting afternoon.

Raymond Kelley, president of the Pacific Advertising Clubs Association, announced the four objectives of the year for his organization:

"Increasing public confidence in advertising, identification of members, civic duties and fellowship."

### DELINQUENT LICENSE. MATTER TO COME UP

Sgt. Oscar N. Lawrance of the Venice police division yesterday was ordered assigned temporarily to confer with the Police Commission in a check-up of delinquent license holders in the Venice district, in directions issued by the board of Acting Chief Steele. Steele was directed to have Lawrance in attendance on the board at informal discussions this morning, when the matter of license delinquencies, the extent of which is uncertain, will be looked into.

pranks of half-baked children—whether they are good or bad. Every child writes diaries in which she tells of her first kiss and her first cocktail but the publishers of no other country have been silly enough to print them in regular books.

## SHULER CHARGE HELD BASELESS

Committee and Court Find Pantages Jury Not 'Hung'

Preacher Indirectly Rapped in Statement by Judge

Unfounded Accusations Hit as Menace to Justice

(Continued from First Page)

wrongful in the manner of its selection or drawing.

The court, in view of the testimony of the last two witnesses, I want to ask Dr. Shuler if he wants to make any reply to it.

Mr. Shuler: No, I think the testimony is virtually correct.

### COURT'S COMMENT

The court: All the court cares to say about this matter at this time is, it seems to me that a very full, fair and exhaustive investigation has been made in open court here by the taking of the sworn testimony as to the issues that I raised at the beginning of the investigation, which was to determine whether or not there was any irregularity of improper procedure, misconduct or corruption in connection with the selection of the jury in the case now on trial.

I have sought the fullest, fairest and most complete and exhaustive investigation on that subject. As I said yesterday, I believe it should be done at this time rather than by a postponement to a later day or time in the trial.

I called in here, as friends of the court, a committee appointed by me to investigate the charges of irregularity, which the court appointed here as friends of the court to act as an impartial body.

The court is grateful to them for the time that they have given, and for the services which they have rendered.

### CONCURRENCE IN STATEMENT

The court now formally makes a finding and I think in doing that I will adopt the language of Mr. Jennings in the language of the court, and the finding of the court is to the effect that the irregularity of the jury in the case on trial, the case of People against Los Pantages, no irregularity, no improper procedure, no misconduct, no corruption has been shown with respect to any juror or in any particular.

This applies to the action and statement of the juror, Mr. Arthur Moore; it likewise with respect to the conduct of counsel in the case; it likewise with respect to the juror and all jurors taking part in the case, there has been no showing, whatever, that any juror is now upon this panel who has not been legally regularly and properly drawn or sworn to properly serve.

The only other observation that I would make is that if this government of ours is to persist, if the judiciary is to be continued as a co-ordinate branch, an essential part of our government to which we are to submit the disputes of citizens on questions between government and citizen, the court must feel that trials formally organized, and being conducted, should receive the confidence and respect of the public in the same manner as the confidence and respect of the public in the fairness and justice of trials.

### RIGHTS POINTED OUT

There are ways, if there are irregularities, there are ways to correct them. There are two other courts of review in this state, above this court sitting here. There are certain rights which every American citizen has, and it is the duty of the government set up by our forefathers, when he is charged with crime, he is presumed to be innocent until the contrary is established by competent evidence, in a competent tribunal; that when a court is organized, consisting of a jury and a judge, to try an issue of fact in a criminal case, until the contrary is shown, that court is entitled to the respect of all citizens, and it is the duty of every citizen to have information that warrants him in his belief that an irregularity has taken place, that something wrong has been done, that justice may result instead of justice, this court, as I know every other court, invites the proper way, as every attorney does, and those facts should be brought to the attention of the court. The court is always open to receive that kind of information. The District Attorney is her ready and willing ally, as the officer representing the people in the prosecution.

### SPIRIT OF FAIRNESS

What I have said, I have said in the spirit of fairness and justice. I feel that citizens called to jury service—and it is quite difficult for the court, as all other courts now to secure as jurors the services of many of our best citizens—and have the proper consideration and respect of our people. Under our law jurors when sworn become judges of the facts, and the sole judges, and they are just as much judges as is the judge upon the bench. Therefore, they are entitled to the consideration and protection of the law, that they may not be improperly influenced, and that their office, which is a very sacred one, should be respected. It should be borne in mind by every one, that every juror who is sworn, with the uplifted right hand, takes an oath that he will render a true verdict based upon the evidence and the law alone, and he calls upon Almighty God to help him to do that.

The court is satisfied from the finding that has been made by disinterested counsel in the case, coming as the representative of the Bar Association, of which more than 2000 lawyers of this community are members. As I have said, I make these formal findings of the court in this case.

### WITNESSES HEARD

Testimony in the Pantages case was concluded at 4 p.m. in order that the Shuler matter might be concluded as soon as possible and the Bar Association Committee called three more witnesses to the stand at once.

### THE THREE CALLED

The three called were Harry Simmons, Jack Carberry and Harry Meason, all employed in the editorial department of an afternoon newspaper.

Simmons testified that he listened to Shuler's radio address last Sunday night, and heard the various assertions made by the minister. Carberry said that he called Shuler on the telephone Monday morning to get a story based on the Sunday radio talk and that Shuler repeated substantially the remarks he made over the radio. While Carberry talked to the minister, it was testified, Meason and others on the radio staff listened to the conversation on extension telephones.

First thing taken up. The Shuler matter was the first thing to be taken up in Judge Hardy's court yesterday morning. With Mrs. Pantages and counsel on the stand, the court and the jury, the court moved at once with the investigation of the minister's charges of irregularity in the selection of the jury.

Court hardly had been called to order, however, before Shuler was called to the stand and he was allowed to cross-examine witnesses who had testified the day before.

"According to the newspapers, I am to understand that he has said I want to know if I have the right to cross-examine witnesses," said Shuler.

Shuler was asked whether he had a legal representative present and when he replied in the negative, Judge Hardy said the proceeding would be suspended for the day and would give Shuler the opportunity to question any one he wished. The minister then announced that he had been questioned by Mr. Meason, clerk of the court, Moore was involved in the controversy when it was asserted that Defense Attorney Joseph Ford was writing on a pad of paper at the clerk's desk at the time the name of Ira Gay, juror under fire by Shuler, was drawn for examination as a prospective juror in the opening of the Pantages trial.

Shuler again was asked to take the witness stand by Attorney Jennings, heading the Bar Association committee. Jennings then produced a typewritten transcript that he said purported to be a reproduction of Shuler's talk over the radio last Thursday night.

Shuler read the document in full and finally declared that it seemed to be correct with the exception that he had no remembrance of saying two defense attorneys knew the name of one juror before it was drawn.

On this point strenuous efforts to make Shuler say whether he did or did not make the statement failed. He would not say whether he had or had not and evaded a direct answer by saying he thought he would remember it if he had made such a remark.

"I do a lot of talking and don't recall all I say," he admitted at one time.

Part of the reproduced radio talk of the minister that was produced in court quoted him, in part, as follows:

"I have said myself and it is my conviction that I will be a hung jury. And I can name a man who will hang it. I don't hesitate to say it will be a hung jury and say I can name a man tonight who will hang it and in my opinion, the man is purposely on."

Another extract was:

"I hope I have some wrong information but I was informed late this afternoon that the (defense) lawyers knew the names of some of the jurors to be drawn next or each one of them before he was drawn."

And again:

"I am informed at least two defense attorneys knew the name of at least one juror to be called next before he was drawn."

"What did you mean by 'purposely on'?" demanded Attorney Shinn, another member of the Bar Association committee.

MANY QUERIES Shuler moved nervously in the witness chair and his answer was not as spontaneous as usual, being elicited in sections by persistent questioning by Shinn.

Bolled down, the minister's assertion was to the effect that the acceptance of Ira Gay as a juror was the topic of considerable discussion as a defense victory and even found expression in the newspaper, and that Judge Hardy, in the midst of the situation, should have taken some action.

"If the judge knew the situation and let the juror on the jury was on deliberately," asserted Shuler.

In spite of this statement, however, the preacher again asserted that he had no evidence of any wrongdoing or corruption or misconduct.

"Doesn't it occur to you that there is an implication of corrupt proceedings?" again questioned Shinn.

Shuler went into an involved explanation that simmered down to the assertion that, despite his yesterday

## Settlement in Handschlegel Case Approved

Legal disputation of the two

widows of the late Max Handschlegel, inventor of a color process of taking motion pictures, was ended in Superior Judge Brown's court yesterday when he approved a settlement between Mrs. J. Handschlegel, first, and Mrs. Beale Handschlegel, second wife of the inventor.

Mrs. May Handschlegel will receive \$20,000, represented by a half-interest in a \$40,000 note, as her share of her divorced husband's estate. She used her husband for several years as a color process of taking motion pictures, and accepted \$20,000 as a property settlement in an unadvised suit.

Later, after Mr. Handschlegel died, Mrs. Handschlegel No. 1 learned of a settlement between her husband and Mrs. Beale Handschlegel, second wife of the inventor.

The settlement was approved by Judge Brown yesterday when he approved a settlement between Mrs. J. Handschlegel, first, and Mrs. Beale Handschlegel, second wife of the inventor.

# Without Basis OFFICERS GOING FOR JACKSON

Hollywood Broker Will be Brought from Oakland to Face Fraud Charges

Detective Lieutenants White and McGee are scheduled to leave for Oakland today to return Herbert H. Jackson, Hollywood broker and producer, to Los Angeles for trial on charges of grand theft and passing a worthless check. Det. Lieut. Clark, in charge of the investigation, announced last night.

As soon as the broker is returned more than a score of persons will be called before the county grand jury as witnesses in an investigation into other alleged transactions connected with Jackson.

The broker disappeared from his office at 6285 Hollywood Boulevard while investigators were inspecting his business affairs. The office was found vacant with all the records missing.

Detectives, however, discovered a Los Angeles firm of which Jackson had a complete record of his books and this is in possession of Det. Lieut. Clark while the investigation is being continued.

# Universal Aerial Line Has Nearly Perfect Score

Establishing an operations record of 99.7 per cent during its first two calendar months of service, the cross-continent air-rail line conceived by the Universal Aviation Corporation of St. Louis, in conjunction with the Santa Fe and New York Central railroads, completed its first trip out of 350 started.

This record is disclosed by figures just released by Paul Goldsborough, vice-president in charge of operations, through L. O. Kennedy, local representative. The Universal Aviation Corporation, which is a division of the Aviation Corporation of America, carried more than 100 passengers during July and August and flew 126,124 miles in 100 hours of flying time.

# JAPANESE WIN PREACHING ROW

Nipponese Evangelists Will Stay on Corner

Plea of Merchants to Revoke Permit Denied

Police Ordered to Arrest All Persecutors

Revocation of a police permit for a band of Japanese evangelists to hold forth at First and San Pedro streets, requested in a petition signed by fifty Japanese business men in that district, was denied by the Police Commission yesterday at the request of Rev. Gustav Briggleb and a petition signed by 700 Japanese.

The commission heard testimony from the evangelists, headed by O. Kamura, that they had been attacked and beaten by "drunken Japanese," and that one had fisted the drum on the head of the band drummer. They charged that police assigned to the district had failed to make arrests, but advised them to complain to the city prosecutor. They said they, and were advised as Christians to forgive their attackers. They had extended the forgiveness, they said, but wanted to be assured they will be protected in the future.

The commissioners directed Acting Chief Sheckel to order the officers on the beat to protect the evangelists and arrest any persons molesting them.

The Japanese who signed the petition for revocation were not present at the hearing. Their complaint is that the evangelists are attacking the character of Japanese residents and charging them with being bootleggers and gamblers.

Briggleb explained that Kamura was a classmate of his twenty years ago in a theological school and spoke in favor of his character and that of his associates, who represent Japanese Presbyterian and Congregational churches in Southern California and are conducting a religious drive in the Japanese district of the city.

President Thorpe likened the attacks on the Japanese evangelists to the persecution of Christians during the Roman era.

# SERIES CONTINUES

Bullock's to Offer Interpretation of Opera Saturday Morning

Continuing the series of opera interpretations that Bullock's is sponsoring preparatory to the Los Angeles Grand Opera season, Dr. Bruce Gordon Kingsley will present the Verdi opera, "Aida," Saturday at 10:30 a.m. in Bullock's assembly room.

"Aida" centers about a love scene laid in ancient Egypt. In the opera, which was first produced in 1871, Verdi depicted the simplicity of old Italian tunes.

# Mrs. Arbuckle Changes Plaintiff in Divorce Suit

Doris Arbuckle, wife of Roscoe (Patty) Arbuckle, former film comedian and recently a night club manager, filed a second divorce suit against him yesterday on grounds of cruelty and desertion.

The first suit, which still is pending and which was filed in August, 1928, asserted intoxication and misconduct with another woman. It asked a division of \$60,000 community property. The suit filed yesterday makes no mention of property, a circumstance that suggests a settlement, and lists only "cruelty and desertion" as grounds.

The couple was married at San Marino, May 18, 1925. They have no children.

Doris Arbuckle

Doris Arbuckle, wife of Roscoe (Patty) Arbuckle, former film comedian and recently a night club manager, filed a second divorce suit against him yesterday on grounds of cruelty and desertion.

# DR. HAYNES CITY POWER BOARD HEAD

Named to Post Vacated by Palmer, Who Becomes Vice-President

Dr. John H. Haynes yesterday was elected president of the Board of Water and Power Commissioners, to succeed former Judge Harlan G. Palmer, who resigned as head of the board, although retaining his membership. Commissioner Palmer then was elected vice-president in place of Dr. Haynes, who had been elevated from that office, the two exchanging positions.

At yesterday's meeting an announcement was made of an agreement between the Department of Water and Power and the Southern California Edison Company on reduction of rates charged by the company for electrical energy which the city buys. It was stated that this reduction means a saving to the city of \$480,000 a year. The new schedule is to go into effect November 1, next, subject to the approval of the Railroad Commission. The present budget allowance of the department for the purchase of energy from the Southern California Edison amounts to \$3,267,000.

Commissioner Palmer yesterday urged prompt action on the purchase by the city of the Owens Valley towns. The board will draft letters to property owners in those sections of the watershed, telling what the city has secured as payment for the properties. Action on this was deferred until Friday.

# Auditorium to be Made Into Giant Boudoir

Sixty manufacturers of beauty preparations from all parts of the United States yesterday were announced as having reserved space in which to demonstrate their wares at the first annual national beauty show to be held in the auditorium of the Ambassador, October 8 to 12, next.

According to Alexander Swan, II, president of the American Salon of Beauty Arts, which is sponsoring the show in conjunction with the Los Angeles Hair Dressers' and Cosmetologists' Association, the auditorium will be transformed into an enormous boudoir of 150 sections. A varied program of entertainment is being planned by Esmé Lutes and Russell Stapleton, directors. Headquarters will be established at the Alexandria.

# New Railroad Schedule Out

Local officials of the Pennsylvania Railroad yesterday announced that, beginning the 30th inst., the system will operate three daily twenty-hour trains from Chicago to New York, and an equal number from New York to Chicago. Frederick Webb, district passenger agent here, announced that the Pennsylvania's twenty-hour trains will leave Chicago as follows: The Broadway Limited, 12 o'clock noon; the Golden Arrow, 2 p.m., and the Fast Mail, No. 32, 9:50 a.m.

Leaving New York for the three twenty-hour trains are: The Pennsylvania Limited, 3 p.m.; the Broadway Limited, 3 p.m.; and the Golden Arrow, 4 p.m., daily. In addition, the Pennsylvania announced improved schedules for the Rainbow, renumbered 42, which leaves Chicago at 4 p.m. and arrives in New York at 1:30 p.m., and for the Pennsylvania Limited No. 2, which leaves Chicago 6 p.m. and arrives in New York 3:30 p.m.

# COUNCIL TABOO ON WINE TONICS

Doctor's Prescription Will be Required by Plan

Action Taken After Hour of Lively Discussion

Another Fight Expected on Ordinance Presentation

An ordinance prohibiting the sale of wine tonics in Los Angeles except on a doctor's prescription was ordered yesterday by Council, voting 9 to 6. The vote concluded more than an hour's discussion. The action was to direct the City Attorney to draw the ordinance. The draft will be submitted to Council on completion, and another lively fight is predicted. One Councilman said he expects that another motion, striking from the ordinance the doctor's prescription clause, will be submitted at that time.

Last week Council instructed the City Attorney to draw an ordinance on the matter, and thought it had disposed of the problem which has been creating a turmoil for the past two months. However, City Attorney Warner discounted the constitutionality of such a law, and yesterday filed a report declaring it legally possible to enact an ordinance restricting sale of wine tonics except on prescription.

# VARIOUS OPINIONS

Councilman Martin moved the City Attorney be instructed to draw such an ordinance, and the discussion began.

Various and diverse opinions were offered. Councilman Ingram said the halting of wine tonic sales will increase the use of whisky, gin and canned heat. It is a matter of enforcement, he said, there being plenty of laws to restrict the abuse.

"We can pass laws until doomsday," he said, "but they are ineffective if not enforced. Why legislate against wine tonics specifically and let the bootleggers get away with murder?"

Councilman Martin and Randall, who introduced the original resolution which started the legislative wheels rolling, denounced the abuses of wine tonics and demanded immediate action.

Councilman Lewis said the city can't enforce an ordinance directed against wine tonics, adding that the Federal government in twenty-four hours has the abuse of wine tonics and bitters by denying permits for their local manufacture and by denying admittance to foreign bitters and cordials, on which a duty of \$1.50 a case is collected.

# WRANGLE GOES ON

Councilman Davis stated that the Council might wrangle for days and reach no conclusion. He moved that a committee of Councilmen Ingram, Martin and Williams, as chairman of the latter, be appointed to confer with the City Attorney on the drafting of an ordinance. This motion was seconded by Councilman Cooke, but failed to meet with the approval of Martin and Randall. The discussion continued, with the clock approaching and passing the luncheon hour. Williams introduced a resolution urging the adoption of an ordinance substantially the same as that in Long Beach.

Then Davis called for the previous question, which shut off debate. Davis's motion for a committee was voted down, 6 to 7. Williams then tried to get a hearing and consideration of his resolution, but was shut off by President Sanborn. The Martin motion then carried and Council adjourned.

The vote on Davis's motion: For the committee: Cooke, Davis, Henning, Ingram, Lewis, Webster and President Sanborn; against the committee: Barthel, Burns, Holland, McAllister, Martin, Randall and Williams. The roll call was the same on the Martin motion except for Henning.

# CATHOLICS NAME AIDES FOR DRIVE

College Building Fund Leaders Announced at Luncheon Yesterday

Leaders for the building fund drive of Immaculate Heart College were announced yesterday by P. H. O'Neil, campaign chairman, at a luncheon attended by fifty friends of the college. Co-operation has been promised in obtaining \$250,000 to retire mortgage obligations on a new twenty-classroom building opened to students for the first time yesterday, O'Neil said.

Mrs. Ward requested will head the alumnae unit, with Mrs. Herbert P. Quinn, Mrs. J. Walter Chum and Mrs. E. J. Woodward as division leaders; the city unit, with G. G. Clark as chairman, will have Marco Hellman, Thomas H. Hearn, Maurice A. Norrop as division leaders; the parish unit, under P. J. McGarry as chairman, includes Miss Jeannette Rule, Edward C. Purpus, J. Walter Chum, Joseph A. O'Connor and Robert L. Chambers.

Directing yesterday's luncheon was Joseph O'Connor, who introduced D. J. McGarry, B. W. Evans, G. G. Clark, Mrs. Fred Marquard and J. Walter Chum as speakers.

The fall semester of Immaculate Heart College began yesterday with a 100 per cent increase in enrollment over 1928, O'Connor said.

# Delay Granted in Argument on Howard Appeal

Oral argument on the appeal of John L. Howard, under sentence of death at San Quentin for the murder of his employer, Victor Cooly, Pasadena automobile dealer, was scheduled for yesterday afternoon in Supreme Court here. Howard's attorneys sought a further delay which was concurred in by representatives of the Attorney-General's office.

The justices set the case down for the December calendar in Los Angeles and directed the attorneys to file briefs before the 25th inst.

# ECONOMICAL TRANSPORTATION for All The People

**T**wenty-one years ago, when the Model T was first made, and again in December, 1927, when the new Ford was introduced, the policy of the Ford Motor Company was announced in these words—

*"We will build a motor car for the great multitude. It will be large enough for the family, but small enough for the individual to run and care for. It will be constructed of the best materials, by the best men to be hired, after the simplest designs that modern engineering can devise. But it will be so low in price that no man making a good wage will be unable to own one."*

**M**ORE than seventeen million Ford automobiles have been made since this announcement was first printed. The passing years have brought many changes—in appearance—in performance—in manner of manufacture. But there is one thing that has never changed—the fundamental idea behind the Ford car.

The Ford Motor Company was formed, and exists today, not merely to make automobiles but to provide economical transportation for all the people. Far more important than the car itself is the part it plays in the lives, the happiness, and the prosperity of millions of people.

Before the Ford was introduced the automobile was considered more or less as an expensive toy, for only the wealthy to drive. There was no conception of its uses and possibilities as we know them today. It was accepted in much the same manner that the airplane was accepted five years ago. Great

emphasis was placed upon its racing speed and very little upon its practical utility.

With the coming of the Ford, however, it became possible for men in all walks of life to enjoy the benefits of transportation that formerly had been limited to a fortunate few.

A great change came over the country and with it a new prosperity. By freeing the movements of men, the Ford also freed their thoughts and created new opportunities. The barriers of time and distance were broken down. Good roads followed close behind the automobile and the isolation of country districts disappeared. The nation grew as people learned to use this newly developed horse-power and fit it to their needs.

Into the hands of men of moderate means—to the workers in factories—to the toilers on the farm—was given a means to increase their income and enjoy the leisure which that increased income should bring. The

working day became shorter because men could do in eight hours the tasks that previously had taken ten or twelve—and do them better.

Always it should be remembered that we do not have automobiles because we are prosperous. We are prosperous because we have them.

Today, with all its improvements—with all its new beauty of line and color—with all the betterments and changes that have been made during the past twenty-one years—the Ford is still a "motor car for the great multitude."

It is not just a new automobile—not just so many mechanical parts carefully put together to run on wheels—but Progress—Achievement—a part of the very life and fabric of the nation.

Business of every kind moves forward at a faster pace because of it. To countless homes it brings the rewards of widening opportunity, happiness, and priceless hours of relaxation in the open air.

All of this not merely because of its safety, its comfort, its reliability, its speed, its acceleration, its ease of control, but because of a fundamental purpose that is greater than all of these. Because, in larger degree than ever, it provides economical transportation for all the people.

FORD MOTOR COMPANY  
Detroit, Michigan

Mack

HOLLING

VER BOXER  
EARN VERDICT

Mountain Fighter Has  
Eight-Round Edge

Park Idol Wages Came  
Battle Throughout

Heady Scrap Piles  
Margin of Points

ST. PAUL, LOWKEY  
Mack bulldozed Eddie Mack  
and Goldie Ham of Olean

They fought  
ten furious,  
slashing rounds  
before a stand-  
ing-room-only  
house at the  
Olympic last  
night, and when  
it was all over  
Referee Billy  
Burke raised the  
hand of the boy  
from Colorado.

It was one of  
the best fights  
seen in this city  
since Ace Hud-  
kins battered  
Sergeant Sammy

into submission at Wrig-  
field two years ago.

There was by a substantial  
margin a two-  
round lead for Mack.

But Mack's tell half the

fight who outpointed by a  
left, kept surging to the  
center of the ring in the last  
round, and hoping that one  
of his right-hand wallop-  
ers would find a vulnerable point

CHARLES LIKE TIGER  
Mack was the winner, with  
a left hook to the chin that  
had felled him but for the  
referee's count, and charged in  
the final.

Mack who, blessed with the  
power of the ring in the last  
round, with only the hope of a  
decision, urged  
himself desperately to accom-  
plish the impossible feat.

Mack who gave a great  
display of courage in the face  
of his first loss, a steady  
and on his face, raised by  
the hand position that allowed  
him to stand his strength.

Mack who, blessed with the  
experience of youth, exhibi-  
ting no weak moment—the only  
time he wobbled and reeled  
in the ring.

PILES UP POINTS  
While all this was happening  
the points. He fought  
and lively fight and richly  
deserved the decision.

He didn't acquire with  
the starting of his own Mack  
with wild swings that  
landed a mark around his own

It was Mack, the kid from  
Olean, who received the great  
victory at the finish.

Mack was a smattering of  
experience for the winner, with  
a record of losses.

Mack is not apparent. Mack  
was a victory. There  
have been no other possible

It was a very battle punctuated  
by Mack's first by one and  
other of the two little

In the last round—the fourth—  
Mack won on Page 14, Column 2)
